

## Inclusivity of all faiths

Motion to Ask Students Union to request University on behalf of our students Multi-faith - Make the space bigger to accommodate all faiths for eg the muslims sisters and brothers can't pray in one small space and all faiths can't be accommodated to pray in a small room. Have strict rules and regulations for respecting other faiths and being sensitive to them. ( eg folding of carpets when done praying or putting statues or holy books away for other faiths) Also Accessibility for the faith room if a disabled person comes to pray and gets stuck. Faith advisors - Have faith advisors of all the faiths in the university as solent has a massive intake of international students every year and having an faith advisor would highly make them comfortable which is university's responsibility to do. Marketing and Communications- The Marketing for other festivals was not done either properly or at all ( for eg Deepawali, Ramadan, Lunar New year these are main big festivals ) and there were no posters/banners or anything from university that people knew about. I have talked to students , faith advisors and gathered information through the university for all these issues and I highly think these issues if they get resolved would highly benefit the Solent international and local crowd.
